

Enjoy the snacks and beverages you want, just the way you want them. Our full-service snack and beverage program makes it easy to provide a wide range of healthy, satisfying, allergy-free and organic snacks and beverages. From customized selections to organizational support and usage reports, we'll design just the right program to meet your needs, support your company's health initiatives and keep your employees happy.

Customized Selections

We work closely with every customer to ensure you have a wide range of snacks to meet your company's unique needs and preferences. Choose sweet and salty pick-me-ups, breakfast items such as cereal and bars, chilled or shelf-stable lunch items, or even special-order items. Most snacks are offered in individual servings to support employee health, but you can also create a "greener" office by ordering nuts, trail mixes, dried fruit and more in bulk.

Organizational Support

At Alta-Foodcraft, we take care of everything for you. Our service includes inventory, ordering, delivery, stocking and rotation of all snacks and bottled beverages and milk. We also provide complimentary shelving units, deli coolers, baskets and other containers to provide a clean, organized and appealing break area for employees.

Expertise & Guidance

We have decades of experience working together to make our clients' jobs easier. Let us help you design a program that will accommodate the growing number of gluten free, nut free and vegan employees in today's workplace, while inspiring all employees to choose healthier options.

Reporting

Our frequent, customized reports include comprehensive usage, history and product selection. We make sure you have all the information you need to satisfy your staff while managing your bottom line. At Alta-Foodcraft, we specialize in coffee, refreshments and happiness. We look forward to putting our snack and beverage expertise to work for you.
